'BUILDING SERVICES  
HEALTHCHECK'

Ensure your buildings are Safe, Compliant and Optimised to protect staff, clients, and all stakeholders of your business against future business interruption risk through non-compliance of statutory legislation and H&S requirements impacted by the Covid-19 pandemic.

Our Building Services Health Check can be tailored to include the following specialist areas:

- Indoor air quality survey and risk assessments (VOCs/Odour/Dust/airborne contaminants)
- Workplace noise & vibration risk assessments
- Legionella survey and risk assessments
- TM44 AC system efficiency inspections and certification
- Biological COVID-19 touch point testing
- Heating, Ventilation and AC condition surveys (HVAC)
- Electrical systems condition surveys
- Energy efficiency fabric/systems review
- Workplace lux level risk assessment
- Life safety systems compliance check
